NOTES

Hat is worked in the round from the brim up to the crown. The body of the hat is worked from a chart. Change to DPNs or your preferred method for small circumference knitting in the round (such as Magic-Loop) when necessary as you decrease for the crown. When working stranded colour work, keep floats in the back loose to maintain stretch. For floats longer than 5 sts, twist yarns together in the back.

Fingerless mitts are worked in the round from the cuff up. The thumb is completed by increasing between markers to create a gusset. An Inverted Double Cable is worked down the centre. The pattern is written to use DPNs, however it can also be worked using the Magic-Loop method or very short circular needles if you prefer.
