NOTES

This is a circular yoke sweater knit from the top down. A small section of short rows are worked at the back of the neck to help with fit. The neckband is picked up and knit last to create a more stable edging, since this sweater is designed to have a large neck opening. Sleeve instructions are written to use DPNs, however an alternate method of working small circumferences can be used, such as a short circular needle for the larger sizes. The stripe sequence is worked with different combinations of yarns held together. See combinations under “Stripe Sequence”. When changing colours between each stripe, only break the yarn that is not being carried over to the next stripe and leave a tail to weave in later.

STITCH GUIDE

M1 (make 1 stitch)

Insert LH needle, from front to back, under strand of yarn which runs between next stitch on LH needle and last stitch on RH needle; knit this stitch through back loop (1 stitch increased)

Ssk (slip, slip, knit)

Slip two stitches knit-wise one at a time from LH needle to RH needle. Insert point of LH needle into front of two slipped stitches and knit them together with right needle (1 stitch decreased)

w&t (wrap & turn)

Slip next stitch to the RH needle, take yarn to opposite side of work between needles, slip same stitch back onto LH needle. Turn work, ready to begin working in opposite direction.

Conceal Wrap on the knit side:

Slip the RH needle under the wrap and knit it together with the stitch that it wraps.

Stripe Sequence

Each stripe in sequence is formed by holding a different combination of yarn together to make a unique colour and texture.

Yarn Pair A - Skinny Singles in Sage held together with Kidsilk Lace in Sage

Yarn Pair B - Kidsilk Lace in Sage held together with Kidsilk Lace in Pine

Yarn Pair C - Kidsilk Lace in Pine held double

To Work Stripe Sequence (in the round)
