Schematic

KIRIGAMI

A beautiful geometric design graces the shoulders of this classic round yoke with sinuous lines and purled acorn caps at diminishing scale. Gentle waist shaping and carefully placed short rows ensure a comfortable fit, and a generous neckline adds to the comely, face-framing effect. This is a pullover to knit in your signature color, and Arbor's nuanced palette offers ample selection.

CONSTRUCTION NOTES

- The body and sleeves are worked circularly from the bottom up and joined at the underarms, then the yoke is worked in the round.
- Short Rows: Sunday Method (see *Special Techniques*) are used to shape the yoke.
- Read all chart rounds from right to left.

Special Techniques

German Twisted Cast On

The set up for this cast on is the same as for the Long-Tail Cast On. Place a slipknot on the needle for the first stitch and then, holding yarns as you would for Long-Tail Cast On, repeat the following 6 steps for each stitch to be cast on:

Step 1: Bring needle under both yarns that are around thumb.

Step 2: Bring needle down through the loop formed by the thumb.

Step 3: Take the needle back over the thumb yarns towards the index finger.

Step 4: Take the needle over the top of the yarn coming from the index finger to catch it.

Step 5: Next bring needle back down through the loop on the thumb.

Step 6: Drop loop off the thumb and tighten up the stitch just formed (note the extra twist in the thumb loop strand).

Short Rows: Sunday Method

This method of working Short Rows was developed by Carol Sunday of Sunday Knits (www.sundayknits.com).

Turn:

On a RS (knit) row: Knit to specified point, turn work (WS facing now), clip a locking marker or coilless safety pin around the working yarn, now prepare to purl back in the opposite direction (do not slip the stitch next to the turn). There will be a gap between the last stitch worked before the turn and the stitch next to it.

On a WS (purl) row: Purl to specified point, turn work (RS facing now), clip a locking marker or coilless safety pin around the working yarn, now prepare to knit back in the opposite direction (do not slip the stitch next to the turn). There will be a gap between the last stitch worked before the turn and the stitch next to it.

When you resume working in the round, close the gaps as follows:

To close a gap made on a RS short row: Work to the gap, gently pull on the locking marker and place the loop of yarn onto the L needle (making sure right leg of loop is in front), then knit the next stitch together with the loop, removing marker or coilless safety pin.

To close a gap made on a WS short row: Work to 1 stitch before the gap, gently pull on the locking marker and place the loop of yarn onto the L needle (pulling it behind next stitch on L needle and making sure right leg of loop is in front), knit next stitch together with lifted loop, removing marker or coilless safety pin.

*Special Techniques (continued)***Kitchener Stitch (Grafting)**

Kitchener Stitch is used to sew live stitches together in a way that mimics a row of knitting. Pieces to be joined are live on needles, with RSs facing out and both needle tips pointing to the right. Use a length of yarn approximately 4 times the length of the finished seam, attached to the R edge of the Back knitted piece (use the yarn the piece was knitted with, or attach a new length of yarn). Thread the yarn onto a blunt tapestry needle and follow the instructions below, working from right to left (note that you will work into each stitch twice):

Step 1: Insert tapestry needle into first stitch on Front Needle as if to purl; pull yarn through, but do not slip this stitch from needle.

Step 2: Insert tapestry needle into first stitch on Back Needle as if to knit; pull yarn through, but do not slip this stitch from needle.

Step 3: Insert tapestry needle into first stitch on Front Needle as if to knit, slipping this stitch off the needle. Insert tapestry needle into next stitch on Front Needle as if to purl and pull yarn through this stitch, tugging it gently.

Step 4: Insert tapestry needle into first stitch on Back Needle as if to purl, slipping this stitch off the needle. Insert tapestry needle into next stitch on Back Needle as if to knit and pull yarn through this stitch, tugging it gently.

Repeat steps 3 and 4 until a single stitch remains on each needle, adjusting the tension of the sewing yarn every few stitches so that it mimics the tension of the knitting. To finish, insert tapestry needle into final stitch on Front Needle as if to knit, slipping it off of needle. Now, insert tapestry needle into final stitch on Back Needle as if to purl, slipping it off of needle. Pull the yarn through and fasten off gently so as not to distort the stitches.

*Special Techniques (continued)***Wet Blocking**

Fill a sink or basin with cold water and a small amount of delicate dish soap or rinseless wool wash. Submerge fabric in water, gently squeezing out any air bubbles so that the piece can remain under water without being held there. Soak work for 10 minutes, allowing fabric to become completely saturated.

Drain the sink and remove work. If you have used dish soap (rather than rinseless wool wash), you will want to fill the sink again once or twice to rinse the soap from your fabric. Never place knitting directly under running water.

Squeeze out excess water from your work, taking care not to twist or wring fabric. Roll your fabric between two clean bath towels “burrito style” and firmly press towel roll. This will aid in removing moisture from the knitted piece. Remove piece from towels – your fabric should now feel damp but not saturated.

Pin piece in place on a blocking board or other appropriate surface, using instructed dimensions. Use as many T-pins as required to block piece into desired shape. Allow fabric to air dry completely before removing. Steam out any creases formed while piece was drying.

Abbreviations

Knit the lifted stitch through the back loop. (1 stitch increased; leans left)
Inv-R	Invisible Increase Right: Insert tip of R needle into R leg of stitch below first stitch on L needle from back to front, lifting this stitch up onto L needle tip. Knit the lifted stitch, then slip the original stitch purlwise with yarn in back. (1 stitch increased; leans right)
