German short rows: see this tutorial for some close-up photos:

http://www.youtube.com/watch?v=i_6PjI20zKA

On a RS row: Knit the number of stitches as stated in the pattern, turn work, bring yarn to front, slip the first stitch as if to purl, bring yarn over the needle to the back of your work and pull tight (this creates the double stitch = DS).

On a WS row: Purl the number of stitches as stated in the pattern, turn work, bring yarn to front, slip the first stitch as if to purl, bring yarn over the needle to the back of your work and pull tight (this creates the double stitch = DS).

Resolving double stitches: When working over double stitches treat them as a single stitch by knitting through both legs of the DS on a RS row (kDS) or purling through both legs of the DS on a WS row (pDS).

Notes

Lillesol is worked seamlessly from the top down. The back is worked in plain Stockinette stitch while the front features a beautiful cable pattern panel at the center. Knitting starts with the cast-on of the shoulders for the back. Once the short row shaped shoulder slope is done, the back is worked flat to underarm. Shoulder stitches are picked up to work the front to the same length. At underarm both front and back are joined to work the body top down in rounds. Neck finishing is worked next. Sleeve stitches are picked up around the arm opening to work the sleeves (short or long) top down in rounds.

Body and sleeves can be lengthened or shortened by working more or less rounds before starting the edging. Size can be adjusted by working widthwise from the size you need/want for your chest, and lengthwise from the size you need/want for your upper arms. Upper arm circumference is determined by the armhole length plus the underarm cast-on. Work more or less rows for both fronts and back (follow instructions for a smaller/ bigger size) to adjust armhole length.

Stitch counts are given after each increase or decrease row/round.
