Special techniques and tips

German short-rows: see this tutorial for some close up
photos http://www.youtube.com/watch?v=i_6PjI20zKA On
a RS row: Knit the number of stitches as stated in the
pattern, turn work, bring yarn to front, slip the first stitch as
if to purl, bring yarn over the needle to the back of your
work and pull tight (this creates the double stitch = DS),
bring yarn to front. On a WS row: Purl the number of
stitches as stated in the pattern, turn work, bring yarn to
front, slip the first stitch as if to purl, bring yarn over the
needle to the back of your work and pull tight (this creates
the double stitch = DS). When working over double stitches
treat them as a single stitch, means: knit through both legs
of the DS on a RS row, purl through both legs of the DS on a
WS row.

WS row.

Llevant is worked seamlessly from the top down. First the yoke is worked back and forth to shape the neck and to create the little button bands at the center of the back. Then the yoke is joined to work in the round. Yoke is shaped with raglan increases. Once yoke shaping is complete, the sleeve stitches are placed on hold to work the body first down to the hem. Then sleeve stitches are placed back on the needles and worked top down in rounds to the cuffs. As this sweater is worked from the top down, it is advisable to try it on from time to time to check the overall fit and length and adjust width/ length if necessary by adding/ reducing raglan increases or plain rounds, or adding/ reducing underarm stitches.
