Special techniques and tips

German short rows:

http://www.youtube.com/watch?v=i_6PjI20zKA

On a RS row: Knit the number of stitches as stated in the pattern, turn work, bring yarn to front, slip the first stitch as if to purl, bring yarn over the needle to the back of your work and pull tight (this creates the double stitch = DS).

On a WS row: Purl the number of stitches as stated in the pattern, turn work, bring yarn to front, slip the first stitch as if to purl, bring yarn over the needle to the back of your work and pull tight (this creates the double stitch = DS).

Resolving double stitches: When working over double stitches treat them as a single stitch by knitting through both legs of the DS on a RS row (kDS) or purling through both legs of the DS on a WS row (pDS).

Notes

The body and the sleeve openings can be lengthened or shortened by working more or less rounds/rows before starting the ribbing, respectively before working the lower armhole shaping. Body and sleeve circumferences can be adjusted by adding or reducing the number of stitches of the underarm cast-on.

Stitch counts are given after each increase/decrease round/row.

Pier 39 is worked seamlessly from the top down. First some short rows are worked back and forth to shape the neck. Then the upper part of the yoke is worked in rounds to the final shoulder width. Front and back are worked separately (back and forth) to the underarm. At underarm front and back are joined to work the body top down in rounds to the hem. Stitches are picked up around the arm openings to work the short row shaped sleeve ribbing. Neck is left unfinished.
