CONSTRUCTION NOTES

This shawl is worked from the centre top down. Stitches are increased at each side on every row to give it its characteristic crescent shape that will make the ends curl on their own.

The mesh sections are introduced as wedges with the use of short rows.

SPECIAL TECHNIQUES

Short rows are a technique that is used to add extra rows invisibly in the middle of the knitting. You can find several tutorials online. One that I found particularly great is by The Purl Bee.
