

PetiteKnit

SEQUENCE SWEATER

Sizes: XS (S) M (L) XL

Bust circumference: 98 (104) 109 (115) 124 cm (after wash and blocking)

Length: Measured mid back from the bottom of the neckband: 52 (55) 57 (60) 64 cm

Sleeve length: 42 (44) 47 (49) 50 cm

Gauge: 22 stitches x 25 rows = 10 x 10 cm in rib (k1, p1) in the round on bigger needles after blocking

Suggested needles: 3 mm / 40 cm, 4 mm / 60 and 80-100 cm circular needles, 3 mm and 4 mm double pointed needles (or the required needle size to obtain gauge)

Materials: One strand Spinni from Isager Yarn (50 g = 300 m) **held together with** one strand Silk Mohair from Isager Yarn (25 g = 212 m) **or** Brushed Lace from Mohair By Canard (25 g = 210 m) **or** Soft Silk Mohair from Knitting For Olive (25 g = 210 m) **or** Silk Mohair from Onion Garn (25 g = 210 m). Calculate using 25 (25-50) 50 (50) 50 g silk mohair and (50) 50 (50) 50 (50) g Spinni for each stripe. Thin elastic band for the neckband. NOTE: the required yardages in silk mohair in the smaller sizes are between 1 and 2 skeins for each stripe.

PATTERN

The Sequence Sweater is knit from the top down in rib (k1, p1) and the yoke is shaped with raglan increases. The sweater is knit with one strand of Spinni from Isager Yarn and one strand of silk mohair held together. The first part of the yoke is knit flat to shape the neckline. The sleeves are knit on double pointed needles (dpns) or on a circular needle using the Magic Loop technique. The neckband is knit at the end from picked up stitches along the neckline, and it is fold over to result in a double neckband in rib.

Note, the gauge should be measured after blocking. That means that while you knit should get a gauge of around 25-27 sts per 10 cm. This will relax into 22 sts per 10 cm after washing and in use. Knit a gauge swatch and wash and block it before casting on for your Sequence Sweater.

Regarding materials

Below is an overview on amounts of yarn used for each stripe. Please note, that the amount of silk mohair used is in some cases a bit more or a bit less than one skein.

	Yarn	XS	S	M	L	XL
Stripe 1+5 (dark grey):	Spinni	50 g	50-100 g	100 g	100 g	100 g
	Silk/mohair	50 g	50 g	50 g	50 g	50-75 g
Stripe 2 (white)	Spinni	50 g	50 g	50 g	50 g	100 g
	Silk/mohair	25 g	25-50 g	50 g	50 g	50 g
Stripe 3 (purple)	Spinni	50 g	50 g	50 g	50 g	50-100 g
	Silk/mohair	25 g	25 g	25-50 g	50 g	50 g
Stripe 4 (brown)	Spinni	50 g	50 g	50 g	50 g	50-100 g
	Silk/mohair	25 g	25 g	25 g	50 g	50 g

Sizing guide

The Sequence Sweater has an intended *positive ease* of 13-14 cm built in the pattern, compared to your actual bust measurement. The sizes XS (S) M (L) XL (XXL) correspond to a bust measurement of approximately 85 (90) 95 (100) 110 (120) cm. Measure yourself to find the best size for you before casting on. If you have a bust measurement of 95 cm, you should knit a size M.

Note, your Sequence Sweater will look quite small when you have just finished knitting it, given the size. When you wash, dry and use it, the rib will “open up” and the gauge should be correct and the sweater will have the right size.

When you wash the sweater and lay it flat to dry, pull it so it obtains the correct measurements and gauge of 22 sts per 10 cm.

Regarding colour choices and sequence

The Sequence Sweater has five stripes. I recommend choosing the same colour for the top and bottom stripe on the body, and that you pick the darkest of your colours for these stripes. This helps the sweater have a visual calmness and gives a “frame” to it.

The height of the stripes is determined by the final length of the sweater. If you wish to make your sweater longer or shorter, you will need to adjust the height of the stripes correspondingly. The given measurements in the pattern are standard measurements, and the length of the finished sweater is 52 (55) 57 (60) 64 cm. The stripes should therefore be 10.4 (11) 11.4 (12) 12.8 cm tall. Measure yourself instead of your sweater and knit all stripes for the same number of rounds **with exception** of the final bottom stripe, which should contain more rounds, as the bottom rib is knit on a smaller needle (and thus has a slightly different gauge).

The colour sequence on the sleeves is the same as on the body. As the sleeves are longer than the body, an extra stripe is added at the bottom of the sleeve. This is knit in colour 2.

You can avoid “jogs” at changing point between colours as follows:

Change to a new colour and work 1 round. At the beginning of the second row, pick up the right leg of the stitch below the first stitch (which is of the previous colour of the sequence) and place it onto the left needle. This “double” stitch is then worked together as one.

(Search “jogless stripes” on YouTube if you need more visual help with this technique).

Raglan increases

Raglan increases are worked before and after the section containing 5 raglan-sts (there will be 4 sections like this along the yoke). The 5 raglan-sts are worked in rib (k1, p1, k1, p1, k1 from the RS). The increases are either right leaning (M1R) or left leaning (M1L) and should be worked in k or p to fit into the rib pattern outside the 5 raglan-sts (i.e. if the last stitch before the increase is a k-stitch the increase should be a p-stitch, etc. –see below).

Work M1R **before** the 5 raglan-sts and M1L **after** the 5 raglan-sts. You should work 8 raglan increases in total each RS row/round. If the last st you knit before the raglan section was a p st, then work a M1R as a k-st; if it was a k st, then work M1R as a p-st. If the next st on the rib pattern after the raglan section is a p st, then work M1L as a k-st; if it is a k st, then work

M1L as a p-st.

Work the increases as follows:

M1R:

Worked as k-st: Using the left needle, pick up the loop between two sts from the back, k1.

Worked as p-st: Using the left needle, pick up the loop between two sts from the front, p1 tbl.

M1L:

Worked as k-st: Using the left needle, pick up the loop between two sts from the front, k1 tbl.

Worked as p-st: Using the left needle, pick up the loop between two sts from the back, p1.

At the end of the pattern you can find pictures of the raglan increases.

Yoke

The yoke is worked in rib (k1, p1) and shaped with raglan increases. At the beginning you knit the yoke flat until the neckline has been shaped, then you will join the work for knitting in the round.

Cast on 69 (71) 77 (83) 85 sts on a 4 mm / 60 cm circular needles using colour 1.

Place markers (–) to mark the raglan as follows:

1 st (front) – 5 sts (raglan-sts) – 5 (5) 7 (9) 9 sts (sleeve-sts) – 5 sts (raglan-sts) – 37 (39) 41 (43) 45 sts (back) – 5 sts (raglan-sts) – 5 (5) 7 (9) 9 sts (sleeve-sts) – 5 sts (raglan-sts) – 1 st (front).

Work flat back and forth **while at the same time** working raglan increases on either side of the raglan-sts **and at the same time** increasing 1 st at each end of the row (to shape the neckline), as follows:

Row 1 (WS): K1, * p1, k1 *, repeat from * to * to end of row.

Row 2 (RS): K into front and back of the **first and last** st of the row (increasing 1 st on each).

Work the rest of the sts in established rib pattern **and** work raglan increases on either side of all raglan-sts (=10 sts increased in total).

Row 3 (WS): Work in established rib pattern (k over k, and p over p) to end of row.

Repeat Rows 2 and 3 a total of 10 (10) 12 (12) 14 times (NOTE: due to the raglan increases,

you will get either 2 purl sts or 2 knit sts together on every other RS row. This is fine and you should just make sure to work k over k and p over p). Next row is a RS row.

You have now worked 10 (10) 12 (12) 14 rows with raglan increases and should have the following stitch count:

21 (21) 25 (25) 29 sts (left front) – 5 sts (raglan-sts) – 25 (25) 31 (33) 37 sts (left sleeve-sts) – 5 sts (raglan-sts) – 57 (59) 65 (67) 73 sts (back) – 5 sts (raglan-sts) – 25 (25) 31 (33) 37 sts (right sleeve-sts) – 5 sts (raglan-sts) – 21 (21) 25 (25) 29 sts (right front). (= 169 (171) 197 (203) 225 sts in total).

Now join the work for knitting in the round as follows (make sure that it is not twisted):

Work Row 2 as described above, cast on 13 (15) 13 (15) 13 sts in continuation of the sts on the needle and work in rib across the sts for the left front. The beginning of the round is now at the transition between the front and the left sleeve. Your stitch count now should be:

5 sts (raglan-sts) – 27 (27) 33 (35) 39 sts (left sleeve-sts) – 5 sts (raglan-sts) – 59 (61) 67 (69) 75 sts (back) – 5 sts (raglan-sts) – 27 (27) 33 (35) 39 sts (right sleeve-sts) – 5 sts (raglan-sts) – 59 (61) 67 (69) 75 sts (front). (= 192 (196) 220 (228) 248 sts in total).

Continue working in the round in rib (k over k, and p over p) and work raglan increases as before **on every 2nd round** a total of 19 (21) 21 (23) 25 times. (Remember to change colour during this section! See "Regarding colour choices and sequence").

You have now worked a total of 30 (32) 34 (36) 40 row/rounds with raglan increases and your stitch count should be:

5 sts (raglan-sts) – 65 (69) 75 (81) 89 sts (left sleeve-sts) – 5 sts (raglan-sts) – 97 (103) 109 (115) 125 sts (back) – 5 sts (raglan-sts) – 65 (69) 75 (81) 89 sts (right sleeve-sts) – 5 sts (raglan-sts) – 97 (103) 109 (115) 125 sts (front). (= 344 (364) 388 (412) 448 sts in total).

Body

Place the 65 (69) 75 (81) 89 sleeve-sts on both sides on hold, while you work on the body. The 5 raglan-sts are split, so 2 sts belong to the sleeve-sts and 3 sts are joined to the sts for the body.

Cast on 5 sts at each underarm with your preferred in-row cast on method (= 216 (228) 240 (252) 272 sts). Place a marker after the middle of these sts at both underarms (side markers). Work in the round in rib (k1, p1) (remember to change colours!), **while at the same time** decreasing at both side markers every 4 (4) 4.5 (5) 5 cm a total of 4 (4) 4 (4) 4 times (= 200 (212) 224 (236) 256 sts) as follows:

Work 2 sts together before and after the side markers (= 4 decreases). Work the sts either k2tog or p2tog depending on the stitch pattern.

Change to a 3 mm / 80 cm circular needle when there are 8 cm left of the bottom stripe. Work the last 8 cm in rib (work tightly) and bind off in rib.

Sleeves

The sleeves are worked in the round on 4 mm dpns or on a long circular needle with the Magic Loop technique.

Pick up and knit 5 sts in the sts cast on at the underarm and place the held sleeve-sts onto the needle (= 74 (78) 84 (90) 98 sts). The beginning of the round is after the middle of the 5 picked-up sts.

Work in the round in rib (k1, p1) (remember to change colour when needed!) until the sleeve measures 36 (38) 41 (43) 44 cm from the underarm, **while at the same time** working decreases on every 6th (6th) 7th (7th) 7th round (as described above for the body) a total of 14 (15) 14 (15) 15 times (= 46 (48) 56 (60) 68 sts).

Change 3 mm needles and work 6 cm in rib (work tightly). Bind off all sts in rib.

Neckband

Right side facing, pick up and knit approx. 112 (116) 124 (132) 136 sts along the neckline using a 3 mm / 40 cm circular needle. This corresponds to picking up 1 st for every st along the cast on edges and 2 sts for every 3 sts along the slanting edges.

Work 9 rounds in rib (k1, p1). Work 1 round in p (folding edge). Work 8 rounds in rib (k1, p1). Bind off loosely in rib.

Finishing

Fold the neckband over to the wrong side and sew the bind-off edge to the neckline with loose stitches.

Pull an elastic thread through the casing of the double neckband and tie it off. This way you

will ensure the neckband will stay neat in use.

Weave in all ends.

Wash your Sequence Sweater and when you lay it flat to dry pull it gently into shape so it reaches its final measurements and the gauge ends up at 22 sts per 10 cm. Avoid stretching the bottom 8 cm of the rib (which were knit on 3 mm needles), as this should remain as tight as possible.

Abbreviations

dpns	double pointed needles
k	knit
k2tog	knit two stitches together
M1L	make 1 left, left slanting increase (see description above)
M1R	make 1 right, right slanting increase (see description above)
p	purl
p2tog	purl two stitches together
RS	right side of your work
st(s)	stitch(es)
tbl	through the back loop
WS	wrong side of your work

Detail of the increases at both sides of the 5 raglan-sts, note how they blend into the rib pattern.
