Mystery Shawl KAL 2019

SCHEDULE

Clue 1 - Friday, October 4
Clue 2 - Friday, October 11
Clue 3 - Friday, October 18
Clue 4 - Friday, October 25

This PDF contains introductory information for the MKAL. You will receive the first instructions for the pattern Friday, October 4. Then, you will receive a section of the mystery shawl pattern each week until the final design is revealed on October 25.

CHOOSING YARN

I designed this year's shawl to feature two colors for a high contrast graphic design. I recommend choosing two colors that have a high contrast to see the crisp lines and details of the shawl. The shawl will be equally beautiful with a lower contrast if you prefer a softer, more subtle effect. Use solid, semi-solid, or lightly speckled yarns. I would avoid heavily speckled or variegated yarns for this design as they may obscure the design details.

You will need two skeins of each color. The MC is the framing color. A dark framing MC will give a strong pronounced effect. A light MC will give a softer effect. Both colors have an equal representation in the fabric. You can decide which color is MC and CC once the first clue of the pattern is released.

I chose plied fingering weight yarns for this year's design to emphasise crisp pronounced stitches. Single ply merino bases will work beautifully for a more drapey effect.

You can reference the Rockefeller design from the Westknits MKAL 2012. Rockefeller was a two-color design with a framing MC together with a CC where both colors were represented equally in the shawl. Starflake will be completely different, but it will represent another two-color relationship.

DETAILS

Sizes: The overall shape and dimensions are part of the mystery! Starflake will be a large shawl, but not quite as big as last year's Texture Time shawl.

Yarn: Fingering weight

Recommended Yarn: Garn Surr Søkke Merino
La Bien Aimée Super Sock
The Urban Purl Lux Hi Twist
Twisted Finch BFL Sock
Undercover Otter Squirm Sock

Yardage: MC (main color) - 2 skeins of wool (399yds / 365m)
CC (contrast color) - 2 skeins of wool (399yds / 365m)

Needles: US 5 / 3.75mm circular in 40" / 100cm length or size needed to obtain gauge.

Gauge: 22 sts & 48 rows = 4" / 10cm in garter stitch (un-blocked). Try to get close to the recommended stitch gauge to ensure you don't run out of yarn.

Garter Stitch Swatch

If you would like to see how your colors interact, I recommend striping the colors together like this...

Knit 2 rows with MC.

Knit 2 rows with CC.

Repeat two-row stripes until you get a good sense of your gauge and color interaction.

WESTKNITS KITS

We selected five BIPOC or LGBTQIA hand dye brands to participate in this year's special 10th anniversary edition of the Mystery Shawl KAL. Each dyer created two beautiful kits for ten total official kits.

Garn Surr Søkke Merino (75% Superwash Merino, 25% Nylon; 464yds / 425m per 100g skein)

La Bien Aimée Super Sock (75% Superwash Merino, 25% Nylon; 467yds / 435m per 100g skein)

The Urban Purl Lux Hi Twist (80% Superwash Merino, 20% Silk; 399yds / 365m per 100g skein)

Twisted Finch BFL Sock (80% Blue Faced Leicester Wool, 20% Nylon; 399yds / 365m per 100g skein)

Undercover Otter Squirm Sock (80% Merino Wool, 20% Nylon; 437yds / 400m per 100g skein)

STARFLAKE

Mystery Shawl KAL 2019

CLUE 4

by Stephen West

INSTRUCTIONS

Break MC and continue with CC for SECTION 7. Keep the two stitch markers in the fabric and slip the stitch markers onto the right needle as you reach them during the next rows.

SECTION 7

Row 1 (RS): K3, yo, k to last 3 sts, yo, sl3 wyif. 591 sts.

Row 2 (WS): K to last 3 sts, sl3 wyif. Repeat last 2 rows six more times. 603 sts.

If you would like to finish your shawl now, you may skip ahead to the I-cord BO instructions. If you would like to knit some more rows in garter stitch for a larger border, continue following the Extra Border Rows. The Extra Border Rows require approximately 190yds / 174m of CC, but you can stop the Extra Border Rows early to customize your border size depending on how much CC yarn you have remaining.

You will need to save approximately 30yds / 27m of MC & 30yds / 27m of CC for the striped I-cord BO.

Extra Border Rows

Follow the extra border rows to add more length to your border.

Row 15 (RS): K3, yo, k to m, slm, *k2tog 10 times, k11, (k1, yo) 27 times, k11, k2tog 10 times, k1; repeat from * twice more, k2tog 10 times, k11, (k1, yo) 27 times, k11, k2tog 10 times, slm, k to last 3 sts, yo, sl3 wyif. 633 sts.

Row 16 (WS): K to last 3 sts, sl3 wyif.

Row 17 (RS): K3, yo, k to last 3 sts, yo, sl3 wyif. 2 sts increased.

Row 18 (WS): K to last 3 sts, sl3 wyif.

Week 4 Abbreviations

BO: bind off

CC: contrast color

k: knit

k2tog: knit 2 together

kfb: knit into front and back of stitch

m: marker

MC: main color

p: purl

pm: place marker

RS: right side

sl: slip stitch purl-wise unless instructed otherwise

slm: slip marker

st/s: stitch/es

tbl: through back loop

WS: wrong side

wyif: with yarn in front

yo: yarn over

Repeat last 2 rows six more times. 647 sts. You may work fewer repeats if you need to leave some yarn for the I-cord bind off.

If you want to use most of your CC for the final border repeats, you may use only the MC for the I-cord BO. I recommend leaving enough MC & CC to work a striped I-cord BO.

You will need to save approximately 30yds / 27m of MC & 30yds / 27m of CC for the striped I-cord BO.

I-cord BO

Use this video to assist with the I-cord BO.

<https://youtu.be/9yctbitc1NA>

Start using CC for the first two bound off I-cord sts. Then, begin striping MC with CC for two rows each resulting in a striped I-cord. Be careful not to bind off too tight.

Next Row (RS): *K2, k2tog tbl, sl3 onto left needle; repeat from * to last 3 sts while working 2 I-cord rows with CC and 2 I-cord rows with MC.

There should be 6 total sts remaining. Place the first 3 sts onto the right needle and the last 3 sts onto the left needle with the purl bumps facing each other. Graft the 6 sts together using Kitchener stitch.

FINISHING

Weave in ends and wet block the finished shawl. You can soak the shawl, squeeze out the excess water, and lay it flat to dry to accentuate the smooth rounded peaks of the shawl. If you want to exaggerate a more pointy edge, you can use blocking pins to anchor the wingspan edge and pin each point of the shawl.
