SUGGESTED NEEDLES & NOTIONS

US 4 / 3.5mm - 32" (40 cm) or longer circular needles for magic loop knitting or preferred needles for small circumference knitting.

Stitch markers, waste yarn, tapestry needle, scissors

GAUGE

25 sts x 32 rnds = 4" / 10 cm, measured over 1x1 rib worked in the round after blocking.

It is important to use the needle size you need to meet gauge.

CONSTRUCTION & NOTES

The Manhattan Mitts are a 1x1 ribbed mitt/mitten pattern. You begin by working the cuff, then increases are made in established pattern for the thumb. Stitches will be held for the thumb, to be worked at the end. For the fingerless mitts, you will continue to work the hand and thumb before binding off. For the mittens, you will continue to work the hand and thumb before working decreases to close those sections.

The instructions start with a tubular cast on, which gives a very neat cast on edge that appears as ribbing. If you are unfamiliar with this cast on technique, I recommend following this tutorial: <https://youtu.be/Tsp60ohuLLE>

The recommended ease is 0.5" - 0.75" / 1.3 – 1.9 cm of negative ease. To pick the proper size, measure the circumference of the widest part of the hand just above the thumb. Subtract 0.5" - 0.75" / 1.3 – 1.9 cm from your hand circumference to determine the finished hand circumference.

For example, for a hand that measures 7" / 17.8 cm in circumference, the size Adult S would be the proper size to make.

For child sizes, the sizing is based on the standard measurements for the following age groups.

Child S: Ages 2-4 Child M: Ages 4-6 Child L: Ages 6-8

If in doubt, I recommend sizing up when making a child size.

Wet blocking is highly encouraged as it will transform and enhance the feel and appearance of 1x1 ribbing.
